EDWARD H. ADAMS NOMINEE FOR MAYOR

Receives The Honor At The Largest Republican Caucus For Years

Mr. Edward H. Adams was nominated Saturday evening for mayor at the largest republican caucus held here for many years. There was a contest on for the office, there being two candidates, Col John Pender being the other aspirant for office.

The caucus opened at four o'clock, and it was held in the Probate Court room on State street. Councilman J. E. Boynton acted as moderator and Ceylon Spinnay as secretary. The check list was used and the markers were: George Palfrey for ward one, H. B. Yeaton for ward two, Frank Newick for ward three, C. Fred Cole for ward four and Frank Smart for ward five.

At the opening it was seen that there was going to be a big vote, for the friends of both candidates were doing considerable hustling and every effort was made to get out every vote. At first it looked like an

even thing, but gradually the Adams votes began to increase and an Adams victory was practically assured before the votes were counted.

The polls closed at eight o'clock and Moderator Boynton appointed George B. Wallace and Robert Phinney as tellers and in a half hour's time they had completed their work. The ballot resulted as follows:

Whole number of votes cast 732
John Pender had 251
Edward H. Adams had 481
Edward H. Adams was declared nominated.

There was no contest for the four members of the council at large and the four members of the board of instruction and the following were nominated:

Councilmen at Large:
Henry P. Payne, Ward One.
Eugene B. Eastman, Ward Two.
John Newick, Ward Three.

William H. White, Ward Four.
Board of Instruction:
Lucius H. Thayer, Ward Two.
Annie H. Hewitt, Ward Two.
Frank W. Knight, Ward One.
Warren N. Davis, Ward Five.

It was voted to empower the city committee to fill any vacancy that might occur, and Mr. Boynton appointed a committee consisting of Mayor Wallace Hackett, John Newick and John N. Newell as a committee to notify Mr. Adams of his nomination.

They returned in a few minutes and Mayor Hackett introduced Mr. Adams.

He was given a generous welcome and made a short address, saying that he was very thankful for the honor and he was aware at the same time that the vote was not personal, but a desire on the part of the citizens to continue the good government, and if he was elected he promised to give his time and energy to carry on the same good work as of the present city government. At the conclusion Mr. Adams was given three rousing cheers.

Judge Adams is one of the best known citizens of this city. He was born in Elliot, Nov. 25, 1868 and was the son of Mr. and Mrs. Levi Woodbury Adams. He came to this city when a young man and since that time has been successful in his various undertakings. He was admitted to the bar in 1897, and two years

KITTERY LETTER

People Suffer from Epidemic of Colds

Mrs. Mary L. Meloon Is Laid to Rest

The Death of Mrs. Knight At the Foreside

Festal Occasions of Free Baptists and Sons of Veterans

Kittery, Me., Nov. 30. Adjutant Mary Radcliffe, now in charge of the Salvation Army in Portsmouth, will, with a number of other members of the Army, have a service next Thursday evening at 7:45 in the Second Christian church, to which all are invited.

Rev. Edward H. Macy officiated at the funeral service of the late Mr. Albert J. Ladd of Portsmouth, which was held on Sunday afternoon. The body was taken to Deerfield for burial.

A meeting of Constitution Lodge of Knights of Pythias will be held on Tuesday evening in Odd Fellows' Hall.

Newell Hone of Oils avenue is suffering with a bad case of ingrowing toenail, having gotten cold in the wound.

The regular weekly prayer meetings will be held in both the local churches on Tuesday evening.

Mrs. Julia Perkins of York was the guest of her daughter, Mrs. George Hill of Love lane, over Sunday and the holiday.

Miss Una Braun is enjoying a short vacation from her studies at Bates College with her parents, Mr. and Mrs. P. H. Braun of Jones avenue.

Mr. Clifford Williams is restricted to his home on Echo street by illness.

The funeral of the late Mrs. Mary L. Meloon was held this afternoon from her late home on Newmarket street. Rev. Henry Emerson Hovey of St. John's church, Portsmouth, officiated, assisted by Rev. Edward H. Macy of the Second Christian church. The burial was at Riverside cemetery, New Castle, under the direction of A. W. Nickerson.

Tomorrow evening in Grange Hall the boys' basketball team of Trade Academy will play a game with the North Berwick High school team. Following the game dancing will be in order.

Mrs. Sarah Morse of Saco is visiting her sister, Mrs. Frank Eastman, at North Kittery.

There seems to be a regular epidemic of colds in town just now, especially among the young folks.

Envoys Sykes of the Salvation Army, a resident of this town, has arrived home from Laconia, N. H., where he has been in business in connection with the army.

Miss Cecily Welcher of Stinson street is spending a few days with a friend in Auburn.

Miss Lemura Goodhue of Melrose, Mass., is visiting her sister, Mrs. Amos Rundlett of the Rogers road, for a few days.

Mr. and Mrs. Frank Call are entertaining Mr. and Mrs. Morrill Sherburne of North Berwick.

The friends of Miss Mattie Laughton will be pleased to hear that she is slowly recovering from her recent illness.

Sunday being the world's temperance Sabbath, celebrated in the Sunday schools, there was special mention of the temperance question at the Second Christian church Bible school at its regular session.

Leslie Clarke of Ipswich, Mass., is visiting his grandparents, Mr. and Mrs. Warren Fernald, on the Rogers road.

Charles D. S. Lovell, M. D., of Lynn, Mass., is the guest of his sister, Mrs. Elizabeth Packard who has been very sick at her home on Old Ferry lane, is improving slowly.

Mrs. Daniel B. Cook leaves on Wednesday for the Cushing Hospital at Roxbury, Mass., for further treatment.

Mrs. Oliver P. Philbrick is improving from her recent illness.

Mrs. John Desmond and friend of Portsmouth were the guests of Amelia Hackney of Love lane recently.

Mr. Samuel Keene still continues ill at his home on Government street.

Miss Lillian P. Goodrich, secretary of the Seaside Christian Endeavor Union was in Portsmouth on Friday on business in connection with the all day meeting to be held in the Christian church, Portsmouth, next Thursday.

Capt. John Bennett, U. S. N., retired, of York has recently been the guest of his brother, Alexander Bennett, of Echo street.

The Woman's Christian Temperance Union will meet on Wednesday afternoon at the home of Mrs. Mary Long of Jones avenue.

It was such a beautiful day on Sunday that a number took advantage of it by going over to the yard to get a last look at the U. S. S. Maine before she sails away this week.

The Ladies' Circle of the Second Christian church will meet on Thursday afternoon at the home of Mrs. William Tobey.

Mr. and Mrs. Wesley Grace of York spent Sunday with Mr. and Mrs. Charles Myers of Government street.

Mr. and Mrs. Walter W. Ladd and Mrs. Charles Meyers attended the funeral of Mr. Albert Ladd in Portsmouth on Sunday afternoon.

Mrs. Arvilla A. Knight, wife of Florence J. Knight, died at her late home on Saturday evening. She had been sick for some time and was a patient sufferer. Besides her husband, she leaves two daughters and two sons to mourn her loss.

A week from Tuesday evening in Grange Hall the Sons of Veterans will hold a poverty dance and a prize of two dollars will be awarded to the best, or rather worst, dressed couple. A good time is assured all who attend. The Sons are to give a dance every other Tuesday evening through the winter and the money that is realized from them is for the benefit of the camp.

Kittery Point
The Ladies' Aid Society of the Free Baptist church will hold a sale in the vestry of the church on Wednesday evening. The sale will consist of fancy articles, home-made candles, ice cream, etc. An entertainment will also be given by the young people to make it a pleasant as well as profitable evening.

Dancing School tonight at Frisbee's Hall, Duchess, etc.
Miss Alice Coss returned from Boston today after spending Thanksgiving with friends.

Food Rafter has returned from a business trip to Rockport, Mass.

AT HOME FOR AGED WOMEN
The matron and her associates in the work of the Home for Aged Women desire to thank the trustees and managers for their kindly interest and sympathy during the past three years, and especially for the various improvements and conveniences generously provided during the past summer which add greatly to the comforts of the home and are invaluable to those who minister to the household.

BOWDEN ARRESTED IN DOVER

Wanted Here For Alleged Larceny Of \$600 From Schurman Farm

Frank Bowden was arrested in Dover on Saturday night at the request of the local police. Bowden is wanted for the alleged larceny of \$600.00 from a Polande employed at Joseph Schurman's farm last Monday.

The local police have been on the watch for Bowden but it was not until Saturday night that they got a tip he was in town and Captain Marden detailed Officer Ducker to watch the train. Bowden got wise that he

was wanted and instead of taking the train he walked to the end of the Kittery bridge and took the electric cars for Dover. Captain Marden notified the Dover police that he was coming that way and shortly before ten received word that they had arrested a man answering the description. They later telephoned that Bowden admitted that he was the man they were looking for. He was brought to Portsmouth today and will be given a hearing on Tuesday.

EMERY TO RUN FOR MAYOR

Portsmouth Democrats to Nominate Him At the Caucus Tonight

The Democratic city committee held a largely attended meeting on Saturday night for the purpose of selecting a candidate for mayor to be named at the caucus this afternoon. Several names were presented but

it developed that many of the men declined the honor. Samuel W. Emery Jr., was named by the committee, this will be the only name on the party ballot today.

EVENTS OF ELIOT

Building the New House for Miss Sarah Farmer

A Special Gathering of the Items from South Eliot

Eliot, Me., Nov. 30. Miss Sarah Farmer's new house at the corner of Farmer and State roads is progressing well. The contractors, Lord and Perkins, have the frame up and boarded and are today putting on the roof. It will be a handsome residence with wide piazzas and plenty of bay windows and fireplaces in both stories. It is being built by the Grange Fellowship as a token of regard for Miss Farmer, whose home was burned last August.

Much fall playing is being done. The warm weather has kept the ground from freezing and given the farmers a chance to get ahead with the work. In some fields the ground is so dry that it crumbles and the plowmen cannot turn a good furrow.

George Kenford has completed the stone wall to the foundation for the large house which he is to build for himself at Kennard's Corner. If the weather continues favorable, the house will be boarded in and chiseled and shingled this year.

The early cars to Boston today were crowded with people returning from a few Thanksgiving days in town.

Miss Helen Ireland of Boston and nephew, Walter Hayden of Salem, Mass., were the guests of her father, George E. Ireland, last week.

There will be a humorous reading given by Rev. Charles D. Crane at the Congregational church this evening.

South Eliot
Rev. and Mrs. Crofts of York were the Thanksgiving guests of J. B. Remick and family.

Arthur Davis of Hallow Falls, Vt., has returned after a brief visit to his parents, Mr. and Mrs. J. W. Davis.

Mr. and Mrs. Horace Walker of Kittery were recent visitors in town. G. Sevall Ramsburg and family of Somersworth passed Thursday as the guests of Mrs. Ramsburg's parents, Mr. and Mrs. Samuel Dixon.

Misses Laura and Helen Ramsburg spent the remainder of the week in town.

Robert Wakefield of Syracuse, N. Y., has been the guest of Mrs. Ella Paul recently.

J. Wesley Remick passed Saturday with his daughter, Mrs. Fred Pickering of Beverly, Mass.

Miss Isabelle B. Remick passed Saturday in Boston.

Mrs. H. H. Foss was a recent visitor in Rollinsford.

Rev. Alexander Dixon conducted the services at the Advent church Sunday. Mr. Dixon is a former resident of South Eliot and is now city missionary in Newburyport.

Mrs. Charles McPhail of Somerville has been passing several weeks with her parents.

Mrs. George H. Fernald of Worcester, Mass., whose summer home is in North Kittery, accompanied by Miss Jessie Fernald, is passing a few weeks in Colorado.

Mr. and Mrs. Guy McWeaver and son Eugene of Richmond, Me., are the guests of her parents, Mr. and Mrs. Charles H. Cole.

Miss Smith, whose home is in Massachusetts is visiting relatives here.

Nathaniel Hueston of Portsmouth was a recent visitor here.

The Ladies of the Methodist society will hold their annual fair next Thursday afternoon and evening.

THE POPE UNABLE TO SEE PEOPLE

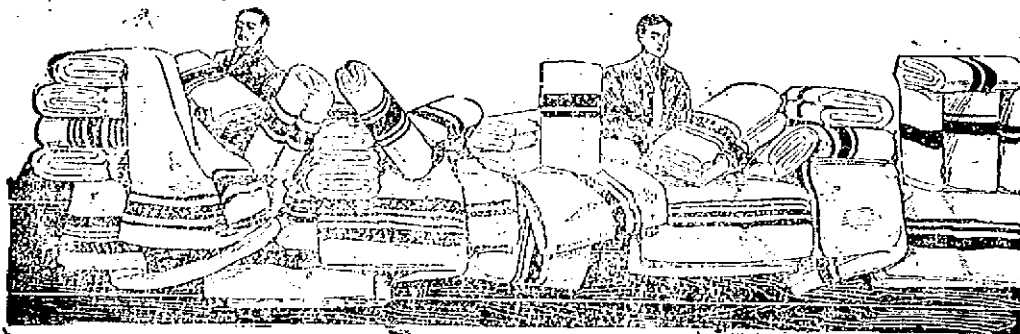

Pius X Suspends the Giving to Audiences At the Vatican

Rome, Nov. 30.—All audiences at the Vatican were suspended indefinitely today, owing to a change for the worse in the Pope's condition. His cold is worse, and a fever has developed, which obliged the pontiff to remain in bed.

His physicians declare his condition not to be serious, but the public is becoming apprehensive.

KRAUS—NEWMAN
Mr. Frank Kraus, a popular member of the sh's company on the U. S. S. Macheita, and Miss Katherine Newman of this city were recently married by Rev. Henry E. Hovey.

The groom is a prime favorite on the little punk at while the bride has a large following of friends and acquaintances who extend congratulations in both bride and groom for a prosperous and happy life. Mr. and Mrs. Kraus will reside in Portsmouth for the present.

The cost for power is exactly proportional to work done
When Gemotors drive the tool

Rockingham County
Light and Power Co.

A total of 576,482 tons of coal costing, in inland transportation \$5-168.2423, an average of \$0.18 per Btu, was purchased during the first year for naval purposes. The average cost of Eds coal, Admiral Cowh says, is much in excess of that for some coal previously. This condition is due primarily to the greater quantity of coal shipped to long-distance ports, principally for

For the last 50 years, the United States has been a leader in the world in the development of new technologies. This leadership has been the result of a combination of factors, including a strong commitment to research and development, a highly skilled workforce, and a supportive regulatory environment. The United States has been able to maintain this leadership position by continuously investing in research and development, and by fostering a culture of innovation. This has allowed the United States to develop many of the most important technologies of the 20th century, including the computer, the internet, and the space shuttle. The United States has also been able to maintain its leadership position by fostering a strong relationship with the private sector. This has allowed the United States to develop many of the most important technologies of the 20th century, including the computer, the internet, and the space shuttle. the 1980s, the 1990s, and the 2000s. The 1980s were characterized by a focus on the environment, the 1990s by a focus on the economy, and the 2000s by a focus on the war in Iraq.

The first category is the *non-quantitative* approach, which is based on the use of qualitative data to assess the impact of a project. This approach is often used in the early stages of a project, when the data is limited and the focus is on understanding the general trends and patterns. The second category is the *quantitative* approach, which is based on the use of numerical data to assess the impact of a project. This approach is often used in the later stages of a project, when the data is more extensive and the focus is on measuring the specific impacts.

JUDGE ADAMS FOR MAYOR

By the nomination of Judge Ed-

ward H. Adams to head the city

ticket, the Republicans of Port-

smouth have made a choice that is a

credit to the caucus.

Judge Adams is a clean man with

a good record and is in every way

capable of giving us a good adminis-

tration of our multifarious city af-

fairs.

He is entitled, on his merits, to

the hearty support of the party and

of the independent voters. In Port-

smouth, Give him the vote he de-

serves.

A NEW ENGLAND NEED

Gifford Pinchot, the head of the

bureau of forestry, is generally ex-

pected to be the secretary of agri-

culture in President Taft's cabinet.

Mr. Pinchot is likely to go down

to fame as the man who made the

great American public familiar with

the assertion that "wood is a crop."

He is the man who has been pro-

claiming the doctrine of preserve the

forests by taking out regular crops

of the trees ready for cutting and

leaving all the other trees in order

that they may be used in a suc-

cession of crops.

Speaking of New England, Mr.

Pinchot recently said: "There are

few parts of the country which more

greatly need to take a new point of

view in handling the forests—the

point of view of conservation. If

the lumber industry is to go on in

must, of course, get the logs, and

for this reason it sounds plausible

to argue that if you save the forests

you will stop the lumber industry.

Yet this would be one of the greatest

mistakes any one could possibly

make. Saving the ripe, merchant-

able forest trees does nobody any

good—not even the trees. They

are made to age, and the more that

scientific forest management can do

is to use them best for the longest

time. There are the best thing that

can happen for the lumber industry

is to use forestry to keep the fore-

sts going. In a word, forest con-

servation is the life insurance of the

lumber industry. But to say that

the New England forests should be

conserved because the wood is need-

ed, is to give only one reason. The

forests should be kept to maintain

the water power of the streams

and the channels of the navigable

rivers. The principal wealth of New

England is her manufactures, and

her centers of manufacture are on

the rivers which rise in the moun-

tain forests. These mountain for-

ests, which are natural reservoirs,

are more valuable for the protection

they give to the streams than for

anything else. The only way to

keep up the wood supply and to re-

tain control over the streams is to

place the White Mountain forests in

the hands of the people and to man-

age them as the national forests in

the West are managed, for the com-

bined use and perpetuation of all

their resources. Sometimes a bar-

rier of wood. How does this forest

conservation concern me? By the direct

aid of the toll and the water in

produces his crops; indirectly he

draws also upon the forests and the

mines. The depletion of the soil

and the want or excess of moisture

cut down his crops. In precisely

the same way he will feel the

change when the price of iron or of

coal rises, or when it costs more to

get the wood that he needs. Just

as the New England manufacturer

needs the forest to protect the water

which he uses to drive his mill, so

the farmer needs the forest to pro-

tect the soil which he cultivates."

Mr. Taft himself has made no an-

ouncement, but we hope that when

he does select his secretary of agri-

culture it will be a man holding the

same beliefs as Mr. Pinchot. New

England needs such a man in just

such a position of influence. And

no part of New England needs him

more than does New Hampshire.

PINE TREE MAGAZINE

Pleasing Publication From on Board

the Battleship Maine

The Pine Tree Magazine is a new

monthly publication from on board

the battleship Maine. The editor

and publisher is B. W. Lambert,

chief machinist's mate.

The first number contains as its

feature article a log of the battleship

on her voyage around the world and

has many other things of interest

not only to the seamen but to the

general public.

The magazine is nicely illustrated.

The first number was printed at the

Portsmouth Herald office, and we

feel pleased at the creditable work-

manship.

The magazine is full of bright

things and is easily worth the five-

teen cents that is asked for it.

Here are a few quotations of a

library quality that shows the merit

of the magazine:

Lots of the men have made fun of

the battleship Maine at Norfolk, but

they hadn't been up against the Ki-

lerry evil ferry.

It is the writer's opinion that if

the ships are painted war color they

will lose a great deal of their pleas-

ant appearance. Nothing looks

more pleasing than to see the ship

standing on the clean white and spar

color at present used.

Now that Mr. Taft will be our

next President his policy regarding

the Navy is brought to the fore. It

is to carry on President Roosevelt's

policy. His policy we may all expect

another ten per cent. raise of pay.

Subsequent to the death of Teddy

and the disappearance of the mon-

key our pets have been reduced to

the ever faithful cats Tom and Nan-

There are a lot of us who wonder

if the Piscataqua doesn't freeze over

even up to its source. This wintry

weather is some change from Naples

or Aden.

Let us hope the Associated Press

won't write the story we have this

time.

In a newspaper interview the Jap-

anese General Juro Terio declares

war between Japan and the United

States to be inevitable. Now that

we're our war color coat on we are

as near ready as Japan.

One hundred and ninety ordinary

seamen and coal passers have been

received and came aboard in coal-

ing yesterday.

Our next issue, if such there be,

is intended to contain a short piece

of fiction, a universal millage table

some Christmas rhymes, some pic-

tures of the place we'll be in, and

the changes in ratings for the month.

Besides little sketches of life aboard

and some happenings ashore of in-

terest to the crew.

Weak Little Boys

may become fine strong

men. Some of the strong

men of to-day were sickly

boys years ago. Many of

them received

Scott's

Emulsion

at their mother's knee.

This had a power in it

that changed them from

weak, delicate boys into

strong, robust boys.

It has the same power

to-day. Boys and girls

who are pale and weak

get food and energy

out of SCOTT'S EMULSION.

It makes children grow.

All Druggists, 50c. and \$1.00.

SHAKESPEARE A RELIGIOUS

TEACHER,

Subject of An Able Address Before

Young Men's Christian Associa-

tion Sunday

The opening Sunday afternoon

meetings at the Y. M. C. A. was held

on Sunday afternoon, with about as

an attractive program as will be

heard this winter. The principal

speaker was Dr. Edgar C. Abbott

and he was remarkably interesting.

Mr. Joseph W. Hobbs presided and

Rev. Alfred Gooding read the scrip-

ture and offered prayer.

Dr. Abbott took for his subject one

that he is thoroughly familiar with

Shakespeare for he is probably one

of the most noted of the lecturers of

this great author. It was "Shakes-

peare a Religious Teacher," that Dr.

Abbott dwelt on and he said that the

poets are the world's greatest reli-

gious teachers they all slug with

Browning, "God is in His heaven

and all is right with the world." Shakespeare, the world's poet, the

greatest of them all is a great reli-

gious teacher. The Bible and Shakes-

peare are coupled together in the

minds of the people because Shakes-

peare teaches the same great truths

as the scriptures. The ethics of the

scriptures are the ethics of the plays.

It is the ethical and moral strength

of the great dramas that gives to

them their greatest gravity and

grandeur, and insures for them im-

mortality. Shakespeare is the great-

est dramatist of the world and his

plays are as great as literature as

they are drama. Shakespeare was an

actor. He was associated with the

theatre. His plays were acted on

the stage. Because of this we some-

times overlook the ethical and reli-

gious side of his plays. The value

of any play consists in the spirit and

influence that proceeds forth from

its reading or presentation. The

plays of the master dramatist not

only give the greatest delight to the

intellect, but they quicken and kindle

the loftiest aspirations of the soul.

The book Shakespeare's best knew,

and from which he most frequently

quoted was the Bible; its language

and spirit is woven into the very

warps and woof of his dramas; and

when we find in his plays the fine

passages of the scriptures shining

forth, they seem to take on a new

lustre when so beautifully fused with

the fine gold of his genius. Many of

the finest passages in the dramas are

only paragraphs of Bible gas-

sages. The quality of Merry Speech

in "The Merchant of Venice," is the

finest passage on money in the litera-

ture of the world, and it is but the

paraphrase of the Old and New Tes-

tament passages, Shakespeare says:

"It is twice blessed it blesteth him

that gives and he that takes." Jesus

says, "It is more blessed to give

than to receive." Shakespeare says:

"Consider this, in the course of jus-

tice, none of us should see salvation."

The New Testament says, "By the

deeds of the law shall no flesh be

justified." In the Hamlet is the no-

ble passage, "What a piece of work

is a man, how noble in reason, how

solitude in faculty, in form and mov-

ing, how express and admirable in

FROM EXETER

A Terrible Scarcity of Water

The Good Luck of Baby Daisy Luck

Mysterious Disappearance of Albert H. Scott

Many Items from the Churches and the Secret Societies

Exeter, Nov. 29. Mail Carrier Albert H. Scott has resigned his position, a post which he has held for eight years or ever since the carrier system was inaugurated. His departure has caused quite a commotion about town, as his whereabouts are unknown, and it savors just a night on the romantic as he leaves behind him a happy home, a wife and two children. He squared up accounts with the government and thus all financial matters are free from the affair. Scott is also a member of Company I, New Hampshire National Guard, serving as first lieutenant, and he is well

known about town. It is rumored that he has left for foreign countries, a fact which arouses the keenest interest and curiosity among the townspeople. The vacancy will probably be filled by Carrier Higgins in the near future.

Prof. Harlan P. Beach of Yale University delivered a lecture before the Christian Fraternity at the academy on Sunday evening, which was attended by many of the townspeople. Prof. Beach is a graduate from Phillips Andover and also Yale, being at the latter institution a classmate of President-elect Taft. He has spent much of his latter years in the Orient of which country he gave an interesting and vivid word picture and after the discourse answered many questions which were advanced to him by the audience. He was at once sent to China by Yale College when that institution decided to open missionary schools in the East and was for many years president of Yale College in that country, a college founded by Yale graduates.

The track team candidates on the board track daily is now the only athletic sports in progress at the academy. There are several of last year's team available this year and also several new students, who bid fair to become fast men on the board track this winter. This work will be continued for the remainder of the term and the opening of the winter term ice hockey will also be instituted. The inter-class bowling contests are to be held semi-weekly as in past years.

Charles W. Richards of Newfields was a visitor in town on Sunday.

This section is fast becoming in need of rain again and the water

question is once more causing anxiety. All of the wells and streams are fast getting low.

Miss Annie Walsh of Dorchester, Mass., is visiting friends in town. John Alexander Henderson of Johnston, Pa., has been elected to the editorial staff of the Exonian. Judge H. A. Shute will address the Men's League of the First Congregational church at Dover on Dec. 9.

All Boston trains on Sunday were heavy with returning Thanksgiving visitors.

Rev. George H. Driver of the First Church exchanged pulpits on Sunday with Rev. Bernard Copping of Stratham, who preached an able sermon on "The Faith That Is a Success."

Rev. James E. Norcross of Boston supplied the Baptist church on Sunday, his sermons being of exceptional excellence.

The Here and There Whist Club will hold its first men's night this evening with Mr. and Mrs. J. Everett Towle.

At the last session of the probate court Concilor William H. C. Follansby adopted Daisy Luck, a child who for several years has been a member of his household. She is one of the three sisters who have been exceptionally fortunate in securing desirable homes, one with Judge John E. Young and the third at Greenland.

Mrs. Mary Scripture of Northwood is the guest for the winter of Eor sister, Mrs. Henry C. Meses.

East Rockingham Pomona Grange will hold its annual meeting with Gillman Grange in Red Men's hall next Wednesday, with closed sessions at 10 a. m. and 2 p. m. The meeting will be devoted to fifth degree work, reports, election of officers and suggestions for the coming year. Swanscott Lodge, K. of P., will have its annual ladies' night next Thursday with a pleasing entertainment. Fred A. Moore, Fred W. Sanborn, Willie S. Day, Clarence M. Collins and John R. Perkins are the committee of arrangements.

The First Parish Men's Club will meet at the vestry this evening. Its president, Attorney General Edwin G. Eastman, will give "Humorous Reminiscences of Practice at Law," and J. Gilbert Haley and Frank H. Lanson will contribute musical numbers.

Orient Chapter, Order of the Eastern Star, will meet Wednesday evening. A supper will be followed by the election and initiation of officers. A Christmas offering will be made for the state Masonic home.

The unexpected happened on Saturday when West Point defeated the Naval Academy in their annual game of football on Franklin Field, Philadelphia. The Navy team had been picked as the winner and even on the showing made Saturday they could be classed as the best team and not be doing the winners a wrong. The game was won on a lucky fumble of a punter ball, that got by the star quarterback of the Navy team and was napped by Chamberlain and carried to within two yards of the goal line and then rushed across. Navy won their points on a field goal after they had worked the ball down to within striking distance of the Army's goal. It was a good game, but not as brilliant as was expected. Cobb of Kittery, who has been playing end more or less this fall, relieved Reinsider at end and played a fine game.

There was a great interest in the game at the navy yard, and a complete bulletin service was received at the office of Rear Admiral Moore, U. S. N., where there was a gathering of officers and a bulletin service also received on the U. S. S. Maine. There was of course considerable disappointment that the navy team did not win, for based on its record this fall, the navy had everything in their favor.

FUNERAL OF G. V. L. MELOON

Held on Sunday Afternoon at the North Parish House

To the mansion prepared by the Master.

Loosed from the suffering clay, Gladly the soul goes speeding Over the brighter way.

Some time we shall meet in Heaven

And press his hand again; And feel ashamed of our sorrow,— We shall know God's reason then.

Funeral services were held Sunday in the North Church at two p. m. over the remains of the late George V. L. Meloon, forty-three, Austria street, Rev. L. H. Thayer officiating, after which the Knights of the Golden Eagle rendered their beautiful and impressive funeral service.

The deceased was born in New Castle Jan. 22, 1865, son of the late William A. and Mary J. Best Meloon. On attaining his majority, he entered into partnership with his brother conducting a carriage painting and carriage manufacturing business for several years, later forming a second partnership, carrying on a furniture business on Market street.

At the time of his last illness, he was employed as a machinist at the Morley button factory, where he has worked for several years, and was very popular and well liked.

He was a member of Massachusetts Tribe, No. 15, Improved Order of Red Men; Oak Castle, No. 4, Knights of the Golden Eagle; and of the Senior Council of American Mechanics. His wife, Mary E., six children, two sisters and a brother, survive him.

He was a man of many friends, and his genial presence was such as to make brighter and more joyous any company in which he mingled. His loss will be keenly felt by a wide circle and his death sincerely mourned.

Interment was in the family lot at Riverside Cemetery, New Castle, under the direction of H. W. Nickerson.

DEMOCRATIC CITY CAUCUS

The Democrats of Portsmouth are called to meet at the new court house on State street, Monday, Nov. 30, from six to eight o'clock in the evening for the purpose of nominating candidates for mayor, councilmen, judges and school board and transacting any other business which may properly come before the caucus.

Per Order, Committee.

POOLE-ATKINSON

The marriage is announced of Herbert Poole of Gorham, Me., and Miss Eliza M. Atkinson of South Berwick, Me., in New York on Nov. 25.

The groom is an instructor and the bride has been a student in the western Maine Normal School at Gorham. She is the daughter of George Walter Atkinson of Portsmouth but for some years has lived with her aunt, Mrs. Grace Atkinson of South Berwick.

Don't use harsh physics. The reaction weakens the bowels, leads to chronic constipation. Get Doan's Regulators. They operate easily, tone the stomach, cure constipation.

OPEN SUNDAYS.

LOOKING BACKWARD.

What is the Earliest Event in Life You Can Remember?

"I can remember back to my fourth year," said a physician. "I was four during the Philadelphia Centennial of 1876, and I remember two Centennial scenes well. One was a great room full of brass band instruments—horns so big and yellow and shiny that they delighted me. I remember, too, a Turkish coffee room. My father took me into this room. Turks in native dress served the coffee. I liked the place at first; then I saw that it was noisy. The native waiters shouted horribly. I was frightened. I was on the point of tears, but whether I cried or not I can't tell you."

"I can remember back to the time when I was three," said a lawyer. "At the age of three my family took me to Cape May. I saw my father out in the water. He laughed and held out his arms to me, and all dressed, I ran into the sea to him."

"All of us," said a psychologist, "can remember back to our fourth year. Some of us can even remember back to the second year. It would make an interesting article, a compilation of the earliest memories of a lot of people. The trouble, as a rule, is to fix the date of these memories, so as to be sure of our age at the time."—Hillsburg Press.

PUNCTUATION.

Originated by Aristophanes and Revived by Charlemagne.

Punctuation by means of stops and points, so as to indicate the meaning of sentences and assist the reader to a proper enunciation, is ascribed originally to Aristophanes, a grammarian of Alexandria, Egypt, who lived in the third century B. C. Whichever his system may have been, it was subsequently neglected and forgotten, but was reintroduced by Charlemagne, the various stops and symbols being designed by Wernfried and Alcuin.

The present system of punctuation was introduced in the latter part of the fifteenth century by Aldus Manutius, a Venetian printer, who was responsible for our full stop, colon, semicolon, comma, marks of interrogation and exclamation, parentheses and dash, hyphen, apostrophe and quotation marks. These were subsequently copied by other printers and their use became universal.

Most ancient languages were innocent of any system of punctuation. In many early manuscripts the letters are placed at equal distances apart, with no connecting link between, even in the matter of spacing, an arrangement which must have rendered reading at sight somewhat difficult.—Chicago News.

Bad Eggs.

Seated in a dark, cool cellar, a lighted candle in one hand, three eggs in the other, the egg collector talked. "No egg is uncatchable," said he. "You can catch an egg when there's nothing left of it but the shell. Who lays it then? The kid glove maker. He beats his kid soft in a yolk bath, and the egg that great feathery yellow bath is the more joyously the kid glove maker splashes about in it. There's a half dozen fresh broken, O. K. but for the shells. The confectioners'll take 'em. This couple is what you might call late, what your grocer would term 'fresh' not 'new laid' nor 'best fresh'—only 'fresh.' Such eggs you could stand in a Spanish omelet, but not boiled. We'll split them and roll the yolks to lay glass makers and the whites to papermakers for sizing."

Easily Pleased.

If you wish to make a Patrician perfectly happy, all you need to do is to say, "Way really," which means a sort of supremely earnest "Well done." The moment this talismanic expression has left your lips the native to whom it is addressed will probably fall on his knees, and, clasping his two hands together, will sway them from side to side as if he were playing a concertina, while all the time his face beams with a most benignant and compunctive smile, and he murmurs "A-o, u-o, a-o," as much as to say, "My cup of joy is overflowing."—Winston Churchill in Strand Magazine.

Asked when he was married, the colored citizen replied, "All I know, sah, is dat it wuz des when she loved shod ed me—ter de minute."—Atlanta Constitution.

WASHINGTON LETTER
(Special Correspondence.)
The liveliest question in Washington
just now is that of a change in the
District form of government. As ev-
erybody probably well knows, affairs
are administered now by a commission
of three men appointed by the pres-
ident, one of whom must be an attorney
engineer. Those opposing the present
form of government argue that it lacks
in concentration and efficiency, that
public matters are delayed by reason
of having three heads and that the
whole plan is inherently weak and has
been long outgrown by the city.
There is undoubtedly a growing
opinion that a concentration of au-
thority in the District government
would simplify the municipal situation
and produce better results. The com-
mission plan has its good features. It
has long been held up as a model
ideally suited to the needs of the Dis-
trict of Columbia, where suffrage is
denied.
Favor Single Head.
Many substantial citizens and large
taxpayers are convinced that a sin-
gle headed government would work more
smoothly and satisfactorily. This is
no new conviction on their part. It
has been emphasized by recent exhi-
bitions of division in the present tri-
umvirate. It is true, but the advisabil-
ity of concentrated authority has ap-
pealed to them for years.
These citizens, however, who honest-
ly believe in the wisdom of a change
for the public good, see great danger
in going before congress and asking
for a change at this time. If by sim-
ple act one commissioner or governor
could be substituted for the triumvir-
ate they would urge it earnestly and
heartily.
Fear Unrestricted Suffrage.
But they fear the proposition would
mean the opening up of the whole
question of the relations between the
District and federal government, with
a possible alteration of the organic act
and preface the granting of unre-
stricted suffrage.
Better suffer the ills we have, they
argue, than invite ills we know not
of, especially as the ills we now have,
though vexatious, impose no heavy
burdens and involve no maladminis-
tration. In other words, they are re-
luctant to take the chance of jumping
from the frying pan into the fire.
If the present form of government
makes for discord, which is freely ad-
mitted, it has, at any rate, not result-
ed in graft and corruption of affairs here
often charged and slow and unsatis-
factory, nevertheless has been almost
uniformly free from scandal, save in
minor places. The integrity of the
commissioners themselves has never
been brought into question.
To Plant Thousands of Trees.
There will be more and better trees
lining the streets of Washington by
next spring than ever before. If the
plans of the division of trees and park-
ing of the District government are im-
plemented.
The officials are busily engaged in
planting trees throughout the city.
Both in the residential and business
sections, and it is expected that, if the
weather will permit, the department
will place in the ground more trees of
all varieties this fall than have been
planted during any one season in twenty-
five years.
From District Nurseries.
The nurseries of the District govern-
ment at the foot of E street southeast
and in the old avenue will supply the
trees to be used in beautifying the
city. Of the 2,100 to be set out, Elms,
oaks, sycamores, etc., Norway maples,
sugar maples, pin oaks, gingkos and
lindens will be in the majority.
During the summer the requests of
residents for trees to be placed in
front of their homes were carefully
considered, and whenever it was found
advisable to grant the requests work-
men were sent to these locations and
excavations made. These excavations
are seven feet long, three and a half
feet wide and four feet deep.
These were filled with rich earth at
the time they were dug. They are now
ready for the reception of the trees.
Preparing For Inauguration.
Already Washington is agitated over
the inaugural ceremonies and the in-
duction of William H. Taft into the of-
fice of president March 4.
Commissioner Macfarland has sug-
gested that a departure be made from
the time honored custom of
holding the inaugural ball in the pen-
sion office. He believes it should be
held in the new National museum
building, which will be finished in all
probability by March 4.
Schools of Long Ago.
The public schools in the District of
Columbia were established in 1801.
Thomas Jefferson, president of the
United States, being the first president
of the board. In those early days two
hundreds of pupils attended the schools,
those who paid for instruction and
those who did not. Nothing could
have been devised to promote class
distinction more effectively than such
a system. The civil war changed it,
and made the public school a public
school, where all pupils stand on the
same equality, that of worth.
The awards of merit in those early
days suggest the poor boy and girl as
winners for under action of the board
in 1825 a suit of clothes was author-
ized to be presented to the most pro-
ficient boy and a frock to the girl.
The first real effort to establish pub-
lic schools in the county was under
the law of Aug. 11, 1856, which pro-
vided for primary instruction of white
children outside of Washington and
Georgetown. A dislike on the part of
the property owners to be taxed for
the education of the poor and to avoid
having their children associate with
their inferiors in wealth caused the
plan to fail. CARL SCHOFIELD.

The British salmon is said to be
worth \$500 a ton.
Denmark has a population of 2,508,
081. Of these 500,000 are in Copen-
hagen and its suburbs.
There is a great shortage of officers
in the Russian army. In the infantry
corps it amounts to 3,000.
During each month for the last two
years about 21,000 Russian immigrants
have entered the port of New York.
Britain, Canada, Australia and New
Zealand had to pay a deficiency of
\$111,800 on last year's working of the
Pacific cable.
An air gun of large size, working on
the principle of the pneumatic ham-
mer, has been devised for killing ani-
mals in a humane manner.
On her preliminary trials the British
destroyer Swift maintained for sev-
eral hours a speed of 38.3 knots, or
nearly forty-five miles an hour. She
is the fastest vessel ever built.
Seven hundred of the persons who
died in Ireland last year were stated
to be sixty-five years of age or up-
ward, and no fewer than 145 were re-
ported to be centenarians or upward.
The British built but German owned
ship Columbia, dismasted by a hurri-
cane off Cape Hatteras, has been pur-
chased by Americans and converted
into the first six masted barkentine in
the world.
Lassa, the mysterious capital of
Thibet, is beginning to show longings
for the amenities of western civiliza-
tion. It has just placed a contract
with a Calcutta firm to supply a large
number of European band instru-
ments.
Mme. Poppova is a Russian woman
who has invented an airship and has
called it the Annulated Dragon, which
gives one an idea of its shape. There
is a system of hoops that serves to
steer it, and the ship is said to adapt
itself to every sort of wind very read-
ily.
A Pittsfield (Mass.) business house
has adopted the policy of having a
young woman bill collector. The girl
is meeting with more success than
three men, it is said. Her favorite
form of salutation is to smile prettily
and ask, "Don't you want to pay your
bill today?" The answer is nearly al-
ways yes.
A few years ago the currency of
Austria was changed from guilders
and kreutzers to crowns and hellers.
To deceive customers figures are still
sometimes placed in shop windows in
such a way that figures are mistaken
for crowns and hellers made accordingly.
By a recent ordinance this has been
made a punishable act.
There has died in the workhouse at
Dorchester, England, a woman named
Harriet Hammett, a native of Tid-
piddle, who was admitted to the
workhouse in 1841. As her age at
death was sixty-nine, she must have
done workhouse gals when five
years old. The only home she ever
remembered was "the house."
The beneficial effect of storage on
the sanitary quality of water now
seems to be well established, and a
further contribution to the data on the
subject has just been made by one of
the experts of the London water board.
He has shown that typhoid bacilli put
in river water gradually disappear as
the water remains longer in storage.
Sweden has three factories building
imitations of American mowers and
reapers. The largest of these built
from 1,000 to 2,000 machines for the season
of 1908, copying almost exclusively one
of the best selling American mowers.
Their reaper is an exact copy of the
American original. Swedish made
parts fitting American built machines.
The new Turkish minister of educa-
tion says: "We have compulsory edu-
cation at present, but we lack primary
schools. We shall establish them. We
shall develop the existing higher edu-
cation. The study of history will now
be allowed. We want a regime of
liberty of the press, even with all the
evils it means, for it is a necessary
evil."
There has been opened in Mannheim,
Germany, a tuberculosis museum, the
object of which is to educate the pub-
lic as to the causes, cure and preven-
tion of consumption. The museum is
opened three times a week for a period
of two hours, and during that time
physicians are present, who instruct
visitors in the manner of fighting the
disease.
While the clock industry of the Black
forest has held its place in the mar-
kets of Europe and America for over
two centuries, the introduction of mod-
ern methods has given it so great an
impetus that within six years France
has more than doubled her import of
Black forest clocks, the Argentine Re-
public has tripled her imports, and the
United States has more than quadrupled
hers.
It has been found that underlying
the plain of Sharon, in Palestine, at
various depths, ranging from eighteen
to eighty feet, there is an inexhaust-
ible supply of good water for all pur-
poses. For ages the inhabitants have
utilized this knowledge, pumping up
the water with primitive arrange-
ments. Now, however, these methods
are being supplanted by modern en-
gines and outfits, and a new period of
prosperity is at hand.
The maharajah gawkwar of Brach
has melted down and converted into
cannon the celebrated gold and silver
cannon of Baroda. Of these costly
but useless toys the silver guns were
the inspiration of a former gawkwar.
In order to "go one better" than his
predecessor the late gawkwar had the
gold guns cast and mounted at a cost,<
it is said, of \$100,000. They reposed in
the state armory and were the wonder
and admiration of all visitors to the
capital.

A Hat That Makes a Picture.
The huge hat that settles bandeau-
less about the head is relieved from
any suggestion of heaviness by the
upturning side roll which shows the
hair. Over the brim of this big hat
of satin in the deep electric or Ed-
ward blue falls a superb black willow

OF EDISON BLUE SATIN,
feather. About the low crown is fold-
ed a wide scarf of silver tissue, on
which are embroidered motifs in the
rich blue color. A hat for ceremonious
wear could scarcely be more simple,
yet the very simplicity of this lovely
model forms its chief distinction.
Feathers and Velvet.
The feathers of last year's chapeau
can be freshened up by holding them
in the steam from boiling water. This
loosens up all the fluff particles, and
if on colored feathers suit is sprinkled
it cleans them. They should then be
dried with hot air and for this pur-
pose can either be held in front of a
register or over a hot stove. When the
latter method is used be careful not to
stain the ends.
After this each strand should be
placed over the back of a silver knife
and drawn between it and the thumb
of the right hand. Put through this
process, they will have a slight curl.
The Popular Molestin.
The extraordinary popularity of
molestins nowadays sets people won-
dering how they ever got along with-
out it. In the past it was called iron
or elephant gray, and there was a
great large some dozen years ago for
snaps of mole color in covert clothing,
a material which, except for covert
coats, is seldom thought of in these
times. Mole seems to have taken an
established place among the colors.
Young Girl's Dancing Frock.
A dainty accordion plaited dancing
dress for a little girl is fashioned of
fine china silk. The skirt is afforded
a decorative finish by three graduated
tucks and is set on to a tiny deodote
yoke of the silk, that is enhanced by
a trailing floral embroidery, flanked
by delicate feather stitching. For the
gaiting and elbow length puff sleeves
—an entirely separate affair—a fine
spot net is used.
Black and Green.
The dead black coat suit has returned
to its vogue. It will not be left alone,
however, as the trifle revers and cuffs
on it will be of the brightest apple
green. Some tailors go so far as to
add a three inch shaped band of green
on the skirt. It is prettier without it.
Jet Ornaments Popular.
Every type of ornament available
is reproduced in brilliant and dull jet.
For the collar are coronets. Mercury
wings, butterflies, serpents, combs,
pins and barrettes, some developed
wholly of the fascinating composition
and others mingled or set with rhin-
estone, seed and fresh water pearls or
opals. Frequently the center of an

BRIGHT JET HAIR AND CORAGE OLIVE
MINES.
Ornament is of jet and its border of
pearls, or the colored stones are set at
regular intervals among the black en-
tines. When the smooth jet is used
pearls and diamonds are smitten into
it precisely as in the case of gold or
silver settings. Bracelets, dog collars,
chains, neckties and plectrum de-
corations of jet repeat all the different
types of settings used for hair de-
corations.
The New Topcoat.
Among the smart models shown for
a service coat is one of thin tissue in
a two toned stripe of gendarme blue.
It is not fastened all the way down,
but has extra wide fronts and is fast-
ened slightly double breasted from
the breast to within four inches of the
waist.
Large buttons are used with hand-
buttonholes for ornament. There are
many pockets, two of which are in the
leeves just below the elbow.

THE WAY OUT OF
The Slough of Sickness
is so plain and sure, and within such easy reach, that all who suffer from upset stom-
ach, sluggish bowels, torpid liver, weak kidneys, or impure blood, may quickly find the way out to health, vigor and strength.

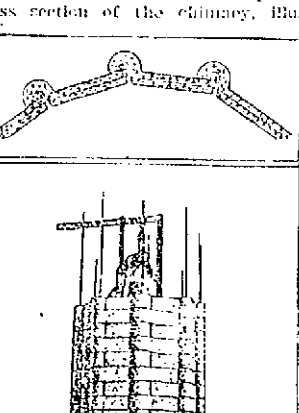

Beecham's Pills

are the one and safe guide out of the slough of acute indigestion, nervous dyspepsia, constipation, bile troubles, sick headaches, impoverished blood, sleeplessness and melancholy.

For over fifty years, to men and women in every part of the world, Beecham's Pills have extended

The Helping Hand to Health
In boxes with full directions, 10s. and 25s.

CHIMNEY OF CONCRETE.
Advantages Claimed For New System of Block Construction.
A Brussels inventor has devised a novel system of construction of concrete chimneys, in which, although the concrete is in blocks, re-enforcement is used, says Popular Mechanics. One of the most interesting features of the method is the fact that the chimney can be built without the use of scaffolding.
The concrete blocks are of large size, permitting rapid construction, and the provision for securing the taper in the chimney construction is particularly ingenious. The cast iron sides of the molds in which the blocks are made are in three pieces only, and the ends of the molds are formed by wooden strip blocks. By adjusting the position of these strip blocks the length of the concrete block can be altered to suit the cause in which it is placed, thus securing the taper of the chimney without multiplying the number of molds. The chimney is polygonal in cross section and may be built with six, eight, ten, twelve or more sides, according to the size of the structure.
The diagram, which shows a partial cross section of the chimney, illus-
tration, showing the chimney under construction. To provide for circumferential re-enforcement, there is placed on the bottom board, on which the blocks are molded, a wooden strip of triangular cross section. This leaves a V shaped groove in the block, in which a rod or wire may be placed. It is claimed that there is no difficulty in proportioning the re-enforcement to the stresses to be sustained, and it is obvious that the vertical rods are so placed as to be less exposed to the interior heat than is ordinarily the case.
Electric Sparks For Cancer.
"Electrocauterization" is the name proposed for the method of dealing with cancer that has been worked out by Dr. de Kouting-Hart of Marseilles. Lack of results with X rays and other light radiations decided him to try high frequency electric currents of very high tension, and the spark rays generated prove active in destroying the tumor masses and stimulating the surrounding tissues to absorb the dead tissue and to form firm scars. Quite weak currents are used, with a tension as high as 25,000 or 30,000 volts. As much of the tumor is removed by cutting as is practicable, and the sparks are applied where malignant tissue seems to be left, the application lasting about five or six minutes. The process being painless, anæsthetics of nonindurating kind are unnecessary. Some medical experts who have investigated report that this method is a real advance, a permanent cure of cancer having resulted, while unadmitted palliatives and temporary effects have been believed.
Origin of Ozone.
According to Messrs. Henriot and Bonasse, ozone is produced by the ultra violet rays of the sun in the upper atmosphere, and the amount contained in the air near the ground increases when air currents descend from the upper regions. Sometimes also it increases during rains. It has been observed that there is a reduction of the proportion of carbonic acid in the air when the amount of ozone increases. This is regarded as an indirect effect due to dilution of the lower air by the pure air descending from above.
An Indefatigable Tree.
An indefatigable tree, known to botanists as *Scaevola arborescens*, is chiefly found in India, but grows also in north Australia and the West Indies. Its sap supplies the natural marking fluid. When dried for commerce it is in heart shaped and nearly black and contains a black sticky juice. For marking linen or cotton this juice is mixed with spirits. It can be made into marking ink by treating the sap with a mixture of alcohol and sulphuric ether and is a good ink for black, varnish.
The Health Giving Apple.
The most recent claim made for apples is that they improve the disposition and make you glad tempered. Further advantages claimed for them are that they not only drive away all disagreeable feelings, but they cure the drink and tobacco habits.

HUMOR OF THE HOUR
Obeying Instructions.
A milkman who lives in a town of New England and collects milk from the neighboring farmers had in his employ a boy whom he sent about with a wagon every morning picking up his supply. There is a rather dangerous railroad crossing on the road, and when the boy began work for him the milkman said, "When there's a train coming just stop and sit still in your wagon till it gets by."
The boy went about his task, but instead of collecting the milk in about an hour and a half, as should have been done, he took at least two hours and sometimes more.
The milkman grumbled a little, but the boy said nothing, and as he seemed honest nothing was done.
One evening the milkman went over his route to see some of his customers. "What ails that boy of yours?" asked one of the farmers.
"Why, nothing, only that he's rather slow," was the reply.
"Slow! Well, I guess you'd think he was slow if you saw him resting for half an hour in his wagon down there by the railroad track every morning."
"Is it true that you stop half an hour every morning down at the railroad track?" the boy was asked.
"Yes, sir, I have to," said the boy.
"Have to? What do you mean?"
"Well, sir, you told me to stop when there was a train coming, and to wait till it got by. There's a crook in the track there, so 't I never can see whether there's a train coming down the track or not. So I just stop and wait till there's one goes by anyway, and then I just skip over lively!"—Harper's Weekly.
How Johnny Managed It.
"You and that little Wattle boy seem to play very nicely together," said Johnny's mother. "I am glad there's one boy in the neighborhood that you can get along with."
"Yes," replied Johnny. "I like him every morning, and then he's nice to me all day."—Chicago Record-Herald.
Admirable.
"I certainly admire that pianist who gave the recital last night."
"For his compositions or for his performances?"
"Neither. I admire him for his nerve in charging \$2 a seat."—New York Herald.
Speed.
"How fast does a motor car take you?"
"It depends on what you mean," answered Mr. Craggins. "Over the roads it goes at the same pace as most of them, but when it comes to running into debt it's got 'em all beat!"—Washington Star.
Useful Waste.
"The style of wearing tailor made gowns is hard on my business," complained the laundress.
"Yes," observed his male victim bitterly. "I notice that you are a believer in 'cheerful waste'."—Cleveland Plain Dealer.
Just Provocation.
Judge—Why did you strike this man?
Prisoner—What would you do, Judge, if you kept a grocery store and a man came in and asked if he could take a moving picture of your cheese?—Harper's Weekly.
Ahead of the Game.
Byker—I attended a successful sleight of hand performance last night.
Byker—So?
Byker—Yes. I lent the conjurer a counterfeit dollar and he gave me back a good one.—Chicago News.
All Made Up.
Florist—What is that sheet of paper you have?
Assistant—I can't quite make out except that it is a blanket order.
Florist—Then I suppose it is for bedding plants.—Pittsburg Post.
Chance For Others.
Mrs. Caswell (reading) John, how did the spelix get its reputation for being so wise?
Caswell—By keeping its mouth shut for 3,000 years, my dear.—Detroit Tribune.
The Reason.
"The writer of this anonymous letter says it is not prompted by malice, but is written for your own good."
"Sure. That's why he was ashamed to sign it."—Kansas City Times.
Between the Acts.
Robbie (at the opera)—Mamma, what does papa keep going out between the acts for?
Mother—Sh! He goes out for opera glasses.—Judge.
College Education.
Knicker—What are the three r's?
Bocker—Rah, rah, rah!—New York Sun.

CITY BRIEFS

Read the Herald.
The snow holds off well.
Only one more page on the calendar.

The best after supper paper is the Herald.

Decidedly quiet with the fire department.

A week from tomorrow the battle of ballots will be on.

There are likely to be many surprises on election day.

The afternoon trains to Boston were exceptionally heavy.

Have your shoes repaired at John Mot's, 34 Congress street.

Visitors to the battleship Maine were numerous on Sunday.

The new Telegraph Company are to have quarters over the cigar store of Thomas Lecky.

The steel chimney on the fireroom of the battleship is being painted by "Steeple Steve."

Sunday was an ideal day and there were a great many out during the day on long walks.

"The Fascinating Widow" at Music Hall this evening. A clever attraction with a good company.

The Sunday afternoon meetings at the Y. M. C. A. opened up in a most auspicious manner Sunday.

It sounded like July 4 in the woods in the vicinity of Rye the past week, gunners are so numerous.

For the Porochia Dix Children of Boston on Wednesday, Dec. 2, a chance which seldom comes to Portsmouth people.

The Democrats will hold a caucus this afternoon and evening. There are several candidates who want to run for mayor.

FOUND—On Miller avenue, ladies' bracelet. Owner can have same by calling at the Herald office and proving property. No fee.

The saloon of Thomas Loughlin at the North End has gone into the hands of Raphael Paola, a former employee of the place.

Four sailors from the ships at the from the ships at the yard took several quashes that were on exhibition in front of the store of W. Henry Smith on Market street, and used them for bowling purposes. They were arrested, but later on paying for the damage, they were released.

A young lad in a pony cart gave the residents of upper State street a scare on Sunday evening, when he drove down through the street yelling at the top of his young voice, "Fire! Fire! The school house is on fire." The people about the Whipple school made a quick investigation and then they waited for the kid to come back, but he never came.

FUNERAL OF MR. LADD

The funeral of Albert J. Ladd was held from the home of his son at No. 5 Cabot street at two o'clock on Sunday afternoon, Rev. E. H. Macy of Kittery officiating.

The remains were sent to Deerfield, N. H., at 5:29 this morning under charge of O. W. Ham.

ELKS TO HOLD A BIG FAIR

The Portsmouth Lodge of Elks at a meeting held Sunday afternoon decided to hold a big fair some time in April, directly after Easter, and committees have been appointed to make the preliminary arrangements.

INCENDIARISM IN NEW HAMPSHIRE

Alleged That a Groveton Fire Hid a Murder

Twenty Year Old Rochester Boy Is Reported to Have Confessed Setting Eight Fires

Groveton, N. H., Nov. 29.—After their efforts to unravel the mystery, the police are now firmly convinced that John Walker, the foreman of the Hivery stable of George Hickey, which was burned early yesterday morning, was murdered and robbed and the stable set afire to conceal the crime. It has been learned by the police that just before the stable burst into flames two loaded pistol shots were heard.

The police are still searching for two men seen in town before the fire.

It was not known Walker had been incarcerated until he failed to put in an appearance after the fire. Then a search was made and his charred body found.

Eight Fires and One Boy

Rochester, N. Y., Nov. 30.—Eight fires are said to have been set in the past month by Norman Gagner, twenty years old, arrested by detectives after he had given the firemen three busy hours. The young man is understood to have made a complete confession and will have a hearing Dec. 4.

Four of the fires were barns, two of which were destroyed.

NAVY YARDS HERE AND AWAY

Excitement at the Power Plant

Shortly before noon today the fire in the central power plant fire-room got a fright and also plenty of work for a short time, that put everybody on a hustle.

The excitement was caused by the blowing out of a valve bonnet on the steam connections over the boilers but could be heard for quite a distance. The boiler was carrying 100 pounds pressure at the time and its escape made matters look serious for the time being.

After a while when the firemen made sure nobody was injured they succeeded in drawing the fires in the eight furnaces and began repairs. A large crowd gathered about the plant, coming from the ships and all parts of the yard, thinking somebody had met death in the accident, which certainly would have been the case had any of the mechanics been at work over the steam generators.

Changes in the Marine Guard

Sergeant Stevens of the yard barracks has been ordered to the prison ship Topoka. Sergeant Richard Grace from the Topoka to New York navy yard, Sergeant Dunbeck from naval prison to New York barracks and Corporal Mages from naval prison to Portsmouth yard barracks.

Much Pleased With His Work

A missionary from the Saint Vincent de Paul Society is much pleased with his work at the prison ships.

Will Begin the Fight on Dec. 10

The basketball team recently organized among the marines at the yard barracks will play their first game with the Columbia Athletic Club of Dover at Kittery on Dec. 10.

Discharge in Boiler Shop

Several boilermakers and helpers were discharged from the boiler shop on Saturday for lack of work.

Another Famous Ship to Go

The U. S. S. Enterprise, the old training ship built at the Portsmouth navy yard early by the government and partly by John W. Griffith will shortly be relieved by the U. S. S. Ranger, now on her way north from Bermuda.

The Tug to be Docked

Plans are being made for docking the tug Patagonia when the colliers Leonidas and Marcellus are floated in the basin. The boat has not as yet received her machinery and will be docked mostly for the work of the steam engineering department.

Reports Have It the Maine Will Sail on Wednesday

Rumors were afloat today that the battleship Maine will sail on Wednesday.

Picture Mouldings

"Crow or Get off the Fence"
We feel that our line is worth crowing about and our work is well known throughout this section. Known to be absolutely first-class. A new line of pictures and picture mouldings have just arrived. You are invited to call and see them.

H. P. Montgomery

6 Pleasant Street

Opp. Postoffice

nesday but the local officials are not yet posted as to the time of the ship's departure.

Two Wiremen Discharged

Two wiremen were discharged from the equipment department on Saturday for lack of work.

More Machinists Called

Six first class all around machinists and one first class all around machinist tool hand were required today in steam engineering.

He Must Have Been With the Side Show

An eighteen-year-old boy traveling with Barnum and Bailey's shows made application for enlistment at the navy recruiting station at Jackson, Miss. The young man, Edward Miles by name, was turned down by the officer in charge because of his height, measuring seven feet and three inches. "Legs don't count in the navy," says the Tupelo Journal, which notes the incident. When a youth of these dimensions undertook to stow himself away on board a man-of-war he would learn that legs do count in the navy.

PROTECT THE CHILDREN

Against Possible Outbreak of Hydrophobia in This City

Boston insists that all dogs be muzzled. Many of the cities and towns around Boston insist also that all dogs be muzzled.

The day's news discloses that a three-year-old boy in Manchester died of hydrophobia on Sunday as the result of a bite from a stray dog. Four people died from hydrophobia in Boston on Saturday.

It does seem as if the authorities in this city, if it is too much to protect the children in the city by causing the dogs to be muzzled, could at least insist that the law be complied with in that every dog should have a collar on with its owner's name and number on a metal tag.

This city is full of dogs roaming around unmuzzled and unmuzzled and yet the law plainly says that every dog so going at large shall be killed by any constable, and that any other person may kill such a dog.

PICTURE OF BIRTHPLACE

Is Wanted by Hon. Henry B. Quinby of Laconia, New Hampshire

Henry B. Quinby, governor-elect of New Hampshire, has written to Biddeford, Me., to get a picture of the house in which he was born. He sent the letter to Postmaster C. E. Atwood with the request that he give it to some photographer. Mr. Atwood handed the letter to the first one he met and the latter will at once take the desired pictures.

The house is the one now occupied by John W. Robinson and family on Elm street near the Boston and Maine station. At the time of Mr. Quinby's birth it stood on the site where the Boston and Maine Western freight house now stands. It is the property of the Boston and Maine railroad.

DR. TREADWELL'S BIRTHDAY

Dr. Robert O. Treadwell is today quietly celebrating his eighty-sixth birthday. A large number of friends have called at his home, No. 129 State street, to tender congratulations.

Dr. Treadwell is a lifelong inhabitant of Portsmouth and until the last few months his familiar figure on the streets was one of the landmarks of the city. He is well physically, though not able to stir about so much as formerly, and mentally he is vigorous.

Telephone service in this district has increased to a great extent and Portsmouth is now considered one of the principal stations east of Boston.

PERSONALS

Miss Louise Virden left today for West Chester, Penn.

Mrs. John Jennings is visiting relatives in Newmarket.

Mrs. Joseph Layton of Salmon Falls passed Sunday in this city as the guest of friends.

Miss Mary Conlon returned on Saturday evening from a visit with friends in Manchester.

Mr. and Mrs. Wilder Quint of Boston, passed the weeks' end with her parents on State street.

Mr. and Mrs. Warren R. Carl left today for Pasadena, Cal., where they will reside for the winter.

Miss Dorothy Foster of this city attended the Army and Navy football game at Philadelphia on Saturday.

Congressman Cyrus A. Sulloway left for Washington today to prepare for the opening of the session of Congress.

Miss Josephine Gilson, who has been the guest of friends here returned to her home in Natick on Sunday afternoon.

Mr. J. Edward Parsheley of the Concord Monitor staff who has been on a few day's vacation to his home here returned to his work on Sunday.

Mrs. Frank Danielson and son Harold of Lynn, who have been passing a few days in this city as guests of Mr. and Mrs. Jacob Smith, returned home on Sunday.

Arthur N. Rand of New York, who with his little son Arthur Gordon, passed Thanksgiving and the remainder of the week with his father John S. Rand on State street, returned home on Sunday.

Mr. Alvin Redden, clerk at the New Hampshire National Bank who has been at the Cottage Hospital for the past two weeks was able to be taken to his home on South Road on Sunday afternoon.

Dr. and Mrs. I. O. Cummings of Brewster, Mass., arrived on Saturday to pass a week with her parents, Mr. and Mrs. C. H. Hayes at the Plains. They leave Dec. 8 for Florida for the winter.

Dr. and Mrs. F. S. Towle, who have been in Boston for the past two weeks returned home on Saturday evening. Dr. Towle has been ill, but is recovering much to the delight of his thousands of friends in this city.

FOR MISUSE OF MAILS

Man Held by Commissioner Kelley After Arrest at Raymond

For an offense which it is charged he committed nine months ago William F. Rollins, 49 years old, was arrested in Raymond, N. H., Saturday afternoon by United States Marshal E. P. Nute of New Hampshire on complaint of Postoffice Inspector William R. Robinson and was held by Commissioner Kelley in this city for the grand jury of the district court of Maine which meets in Portland on Tuesday. In default of bail he was committed to jail.

POLICE COURT

Judge Simes heard the trials and troubles of three drunks today. They went on record as follows:

William Hazel, a strange jag, will have to produce \$3.00 without costs if he cares for his release.

William J. Connor, who claimed New York as his home and shenanaking as his trade, was the only one favored and his case went on file.

Teofilo Zortich, a Russell Alley resident, was out for trouble on Saturday. On a telephone message of neighbor Burke went up that way and found she had locked everybody out of the house and was making things more than lively on the inside. When the police came she gave up the fort and went to the station. Her case was worth \$2.00 and costs of \$6.00 in court today.

PAULIST FATHER ON PRISON SHIP

Conducting Services At the Local Navy Yard

A mission is being conducted on the prison ships Southey and Topoka by Rev. Fr. John Griffin of Springfield.

Father Griffin, who is a member of the Order of Saint Vincent de Paul, is widely known for his missionary work in different parts of the country and is the first priest to enter on such work on the prison ships at the navy yard. He will continue the work for one week on the ships and will then go to the naval prison on Seavey's Island.

In carrying on this good work, the missionary has been successful to a great extent through the efforts of the commanding officer of the ships, Chief Boatswain William L. Hill, and the governor of the naval prison, Major Henry Leonard.

OBITUARY

Aurilla A. Knight

Mrs. Aurilla A. Knight, wife of Florence J. Knight died at her home in Kittery on Sunday. She was 52 years of age and leaves besides her husband, a son and three daughters.

Thomas Alfred Trafton

Thomas Alfred Trafton, died on Saturday night at his home after a short illness, aged 25 years. He was the son of Mr. and Mrs. George A. Trafton and leaves besides his father a wife and one daughter, three brothers, Charles W., Edward F., and Arthur G. Trafton and three sisters, Mrs. A. G. Yeaton, Mrs. P. M. Rand and Mrs. E. L. Weaver.

SALOON BROKEN INTO

The saloon of Frank Lizzo on Market street was broken into some time early Saturday morning and a sum of money taken.

The break was discovered by the proprietor when he opened for business on Saturday morning, and an investigation showed that the money draw had been tapped for \$22.00. The thief gained entrance by breaking a rear window and when he got all he wanted he opened the front door and went out that way.

NOTICE

A Special Meeting of Strawberry Bank Grange

There will be a special meeting of Strawberry Bank Grange at Freeman's Hall on Tuesday evening, Dec. 1.

The sisters are requested to bring pies or cake. A full attendance is desired.

Per Order.
